Objective:

To create software that is both incredibly functional and aesthetically pleasing by focusing on user experience, human-computer interaction, and design.

Education:

Georgia Institute of Technology, Atlanta, GA

6/2008-5/2013

Candidate for Bachelor of Science in Computer Science
GPA: 3.18 | Computer Science: 3.37

Relevant courses:

- User Interface Design
- User Interface Software
- Interdisciplinary Design
- Intro to Database Systems
- Data Structures & Algorithms
- Media Device Architecture
- Intro to Information Visualization
- Computer Graphics
- Computing & Society

Experience:

Delcan Technologies, Inc.

1/2011 – 8/2012
(3 semesters)

Computer Science Co-Op

Developed web-based systems in .NET utilizing latest frameworks
Designed new interactions for live systems
Team-based project development

Georgia Tech Athletic Association – Computer Operations

6/2008-8/2011

Student Assistant

Software and drivers troubleshooting
Repairing broken hardware

Skills & Languages:

Human-Computer Interaction

Interaction Design

Usability Testing

Rapid Prototyping

Information Visualization

Responsive Web Design

Database Design

International Experience – Study
abroad in Barcelona

.NET – C#, Visual Basic

ASP.NET MVC 3

WCF

NHibernate

NServiceBus

Java

Python

HTML

CSS

Javascript

Windows Server

Visual Studio 2010

SQL Server

Eclipse

Adobe Creative Suite

Microsoft Office

Activities:

Georgia Tech Motorsports – Formula SAE (2012)

Georgia Tech Ultimate Club (2008-2012)
